

# CLASS 12

Beacon 37 is organized of ordinary people doing extraordinary things, something SO BIG, it has NEVER BEFORE been done. A commitment to bring forward our lawful platform. It is time, time to free America with choice and remedy. Far too long the 'system' has been twisted into a means in which to hold us to indentured servitude.

Continually on our conference calls we are straying from the main purpose of our mission. Going forward we would like to remind everyone that these calls are meant to give updates on our progress of bringing the remaining 21 states on board with completion of their Jural Assemblies. The sooner we complete the required states to convene the Committee of States, the quicker we can live a lawful life.

We are suspending Marilyn's corner and will no longer allow discussions to be brought up that have nothing to do with our main focus. We continue to request help finding people in the following Territories, West Virginia, Idaho, Oklahoma, Nevada, Washington, Oregon, Montana, Wyoming, Hawaii, Alaska, Tennessee, Vermont, Maine, Missouri North Dakota, Utah, Louisiana, Mississippi, Arkansas. New Mexico. Please do your best to reach people in those states. Send the phone numbers and emails to Phyllis in Indiana and she will forward them on.

We would like to express that bringing the Territories forward is a ---- one time---- committee meeting and we should have all 37 Territory petitions. This is why such effort is needed.

Marilyn's Corner may resume in the future BUT get this straight people, any and all documents are for reference, not adoption. "Intent" is an expression to carry over to the people, the people decide on the use of such documents. Extensive discussions are not applicable at this time because every case is specific and personal. Anybody leaning toward current foreign occupying government as their vision of remedy are not listening very closely. You still don't get it. Commingling law forms are a trespass on the public side and are dangerous. Be clear and certain you know what you are applying. Study the material and its application and insert it properly into your situation. Other groups don't understand this and still believe they have authority on the public side. You're a subject over there.

Beacon 37 people are NOT responsible for callers' comments and actions though we make every effort to correct "ill spoken words or attitudes". No one person or

Beacon 37 as a group is accepting liability for misconduct or extreme views. Anyone conducting themselves in such manner will be dropped from the call and such actions will be considered a breach of common trust to act appropriately.

To reiterate, Beacon 37 people agreed upon a consensus that personal information such as phone numbers and emails were NOT to be shared unless permission was given and all communication is to be given to and received by John in New Hampshire and Phyllis in Indiana. That was absolute. This protocol has been stated, argued, discussed and stated again as ABSOLUTE. Please abide by the consensus.

In the event of a transgression or indiscretion on the part of a Delegate within the Territories, the injured party may file a formal complaint with the Jural Assembly of the corresponding Delegate. It is then a matter for the Jural Assembly to review the facts and take action accordingly. In other words, we are conducting a “common law” court within our ranks. The complaint is a formal action that says “you have harmed me and I have come to settle the matter peacefully”. (That is just like asking for an Administrative Hearing.) Then the facts are placed before the (common law Jural Assembly) court and evaluated. There is time for the accused to verify, defend and/or correct his/her actions. Then the Jural Assembly shall make a determination which is ABSOLUTE.

The above actions reflect governance by, of and for the people. It is the everyday man and woman allowing their voice to be heard and with love and integrity under the Unwritten Law, Maxims of Law, Common Law and Treaty Law

FYI Colony Information ----- an email was received by Stephen in Georgia on “October 21, 2017 resigning from all committees, offices and participation in any and all activities involving Beacon 37”.

It is a documented fact that the Articles of Confederation are the **LAST** and **ONLY** *lawful, valid* laws for the people on the American continent, living and breathing men and women of the soil, American Nationals, us. Everything after the Articles of Confederation DOES NOT APPLY to us. It is all corporate. It applies only to the corporation. It does not pertain to us unless we participate.

All statutes, rules, policies, codes, etc. apply to the corporation. They are a blueprint explaining how the corporation MUST protect us.

Remedies for the American National are inscribed throughout all corporate documents. For instance, the Habeas Corpus. When we do not self-incriminate, our actions prove we are NOT the corporate entity they are presuming and using a Habeas is a formal rebuttal. The classes were meant to be an education of the private side. Tips and help for each and every one of us, with remedies we hadn't considered before.

Beacon 37's Mission is to bring the Republic forward  
so that all may prosper  
and enjoy our God given rights.

It is the BIGGEST, most precious legacy one can participate in, not only for yourselves but for the entire nation as well as the entire world. Who wouldn't want to be a part of this?????
